BRYN MAWR REHAB HOSPITAL

Bryn Mawr Rehab Hospital is celebrating 40 years as a pioneer and leader in the field of physical and cognitive rehabilitation. The acute rehabilitation hospital offers a full-range of rehabilitation services, including inpatient rehabilitation care, day treatment and outpatient rehabilitation programs for adults and adolescents. Bryn Mawr Rehab Hospital treats brain injury, stroke, spinal cord, neurological disorders and disabilities, chronic pain, amputations and other orthopedic problems.

Donna M. Phillips, President, Bryn Mawr Rehab Hospital

From our Patients' Perspective

"The staff at Bryn Mawr Rehab Hospital has gone far beyond their duties, being courteous, reaffirming and making sure I was well informed of my options, including future care. I came here as a patient ... I went home as a person.

Your facility is top-notch, both in your equipment and staff, and we are grateful our family member had the opportunity to recuperate there."

Bryn Mawr Rehab Hospital is a pioneer and leader in the field of physical medicine and rehabilitation and offers a full-range of rehabilitation services, including acute inpatient care, day treatment and outpatient programs for both adults and adolescents. Bryn Mawr Rehab Hospital treats brain injury, stroke, spinal cord injury, multiple sclerosis and other neurological disabilities, chronic pain, amputations and other orthopedic problems.

Bryn Mawr Rehab Hospital became the first rehabilitation facility in the United States to receive accreditation from the Commission on Accreditation for Rehabilitation Facilities (CARF) for its Amputee Rehabilitation Program. CARF noted Bryn Mawr Rehab Hospital provided "a person-centered amputation specialty program that utilizes a continuum of care with a holistic inter-disciplinary team approach." Follow-up services to patients, along with its Amputee Support Group, stood out to CARF: "The well-defined structure established for patient education makes Bryn Mawr Rehab Hospital a leader in the field of amputee rehabilitation."

Bryn Mawr Rehab Hospital also offers specialized services such as Aquatic Therapy, a Driver Rehabilitation Program, Horticultural Therapy, Work Hardening, Assistive Technology and Vestibular (balance) Rehabilitation.

The Bryn Mawr Rehab Outpatient Network is one of the largest rehabilitation providers in the Philadelphia suburbs and provides rehabilitation services at nine locations.

Unique to Bryn Mawr Rehab Hospital is the award-winning *Cruisin' Not Boozin'* program that has educated over 300,000 children, teenagers and young adults about the consequences of drinking and driving.

PHILANTHROPY

The Power of Charitable Donations to Bryn Mawr Rehab Hospital

Each year, Bryn Mawr Rehab Hospital, as a non-profit organization, receives thousands of charitable donations – large and small – from the community.

Many people make gifts to the Annual Fund which are put to immediate use in support of our highest priority needs. Others make special gifts to projects such as capital campaigns that fund new facilities and technology. Yet others focus on the future with planned gifts, such as a bequest in their will or a life-income gift to establish an endowment in an area of their interest.

Whether it is a gift of cash, stock, real estate or insurance, philanthropy is more than a proud tradition at Bryn Mawr Rehab Hospital. Gifts from grateful patients and friends provide vital resources that support many mission-driven programs that operating revenue alone cannot.

Our mission and your generosity – a powerful partnership benefiting our community far into the future.

VOLUNTEERS

Bryn Mawr Rehab Hospital had 176 volunteers last year. These dedicated individuals donated close to 15,000 hours. Over the past years our volunteer programs have expanded to include Beautician Escorts, Newspaper Sales, Volunteer Patient Advocate, Patient Readers, Popcorn Vendor and Student Shadowing. What's next: Bryn Mawr Rehab Hospital Entertainment Night.
