

Welcome to the Emergency Care and Safety Institute

Welcome to the Emergency Care and Safety Institute (ECSI), brought to you by the American Academy of Orthopedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP).

The ECSI is an educational organization created for the purpose of delivering the highest quality training to laypersons and professionals in the areas of First Aid, CPR, AED, Blood borne Pathogens, and related safety and health fields.

Two of the most respected names in injury, illness, and emergency medical care-AAOS and ACEP-have approved the content of our training materials.

For more information, or if you have any questions, contact us by dialing 1.866.CALL.MLH (225.5654) or visit us on the web at www.mainlinehealth.org/riddle.

About Riddle Hospital

Riddle Hospital, a member of Main Line Health, is an acute-care, non-profit hospital licensed for 204 inpatient beds and 23 Transitional Care Center beds. Riddle has been nationally recognized by The Joint Commission, HealthGrades, the Society of Chest Pain Centers and other healthcare ratings organizations for its high quality patient care. The hospital offers a full range of services including maternity, orthopedic care and cardiovascular care--aided by a dedicated team of health care professionals and advanced technology. The emergency department provides 24-hour care. Health Center 4, a LEED Certified Gold building, houses the Rothman Institute, a variety of outpatient programs and a new state of the art surgical center.

**2014
First Aid Classes**

Why is First Aid Important?

It's better to know first aid and not need it than to need it and not know it. Everyone should be able to perform first aid, because most people will eventually find themselves in a situation requiring it for another person or themselves.

2014 Class Schedule:

Saturday, March 22
9 am - 12 pm
(CLASS WILL BE HELD IN ANNEX B)

Thursday, June 12
7 - 10 pm

Thursday, September 16
7 - 10 pm

Saturday, December 6
9 am - 12 pm

Cost is \$40

Although a delay of just a few minutes when a person's heart stops can mean the difference between life and death, most injuries do not require lifesaving efforts. During their lifetimes, most people will see only one or two situations involving life-threatening conditions. Saving lives is important but knowing what to do for less severe injuries demands greater attention and more first aid training.

You will be given a book at the time of class and your completion cards will be mailed out within two weeks of your class date.

Unless otherwise noted, the classes will be held in the Administrative Annex Conference Room A. For more information, or to register for a First Aid course, please call 1.866.CALL.MLH (225.5654) or visit us on the web at mainlinehealth.org/riddlecommunity where you will be able to register with a credit card payment.
