MISSION

To provide a comprehensive range of safe, high-quality health services, complemented by related educational and research activities that meet the health care needs and improve the quality of life in the communities we serve.

PHILANTHROPY

Each year Main Line Health receives thousands of charitable donations from the community. These gifts are both large and small. Many people give to the Annual Fund or make gifts to special projects such as capital campaigns for new facilities and technology. Others choose to make planned gifts such as a bequest in their will or a life-income gift to establish an endowment in an area of their interest. These gifts help to ensure that Main Line Health continues to provide the highest quality and most compassionate health care possible.
