

1

Ensure Regular Visits

| All Patients | Controlled Chronic Conditions | | | | | Uncontrolled Chronic Conditions |
|----------------------|-------------------------------------|--------------------------------|-----------------------------------|---------------------------|-----------------------------|---------------------------------|
| Annual Wellness Exam | <i>Hypertension</i> q6-12 months | <i>Diabetes</i> q4-6 months | <i>Depression</i> q6-12 months | <i>CHF</i> q3-6 months | <i>COPD</i> q 3-6 months | q1-3 months |

*Submit ICD-10 codes for all of a patient's conditions on an annual basis

2

Close Care Gaps

3

Manage Specialty Relationships

- Limit unnecessary visits
- Discourage sequential referrals

4

Minimize Rx Spend

- Prescribe generic medications
- Avoid high-cost brand and generic medications

5

Reduce Emergency Department Utilization
