MLHPP CY 2018 Primary Care Priorities

1. Ensure Regular Visits

<table>
<thead>
<tr>
<th>All Patients</th>
<th>Controlled Chronic Conditions</th>
<th>Uncontrolled Chronic Conditions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annual Wellness Exam</td>
<td>Hypertension q6-12 months</td>
<td>Diabetes q4-6 months</td>
</tr>
<tr>
<td></td>
<td>Depression q6-12 months</td>
<td>CHF q3-6 months</td>
</tr>
<tr>
<td></td>
<td>COPD q 6 months</td>
<td>q1-3 months</td>
</tr>
</tbody>
</table>

*Submit ICD-10 codes for all of a patient’s conditions on an annual basis.

2. Close Care Gaps

- Cancer Screening
- Diabetes
- Immunizations

3. Manage Specialty Relationships

- Limit unnecessary visits
- Discourage sequential referrals

4. Minimize Rx Spend

- Prescribe generic medications
- Avoid high-cost brand and generic medications

5. Reduce Emergency Department Utilization
