MATERNITY VISITOR INFORMATION

At Main Line Health we recognize that open visitation to family and friends support the healing process. Therefore our maternity department welcomes visitors as the family desires. We support 24-hour visitation, seven days a week. Babies come at all hours of the day and we welcome visitors to come whenever the new baby arrives.

In order to provide a safe environment, we ask that visitors adhere to the following:

- In Labor and Delivery we allow only two support people at the bedside.
- Children visiting must be at least 1 year of age or over and need to be current with their chicken pox vaccine.
- One partner/family member may stay overnight if desired. Overnight guest must be 18 years of age or older unless they are a parent of the newborn.
- We ask that all visitors respect that our patients are healing and bonding. Please keep voices down.
- We request that any family or friends who are sick or not feeling well refrain from visiting.
- If is at the discretion of the care providers to modify visitation in order to support a healthy environment.

QUIET TIME

In an effort to make our patients' stay more enjoyable,
we offer a one-hour quiet time period (2:00–3:00 pm) every afternoon.
During this hour, the staff tries not to disturb you so you and your partner
can bond with your baby, take a nap or just relax.
