Present School: _____

Address: _____

Teacher: _____ Grade: _____

Please list other professionals working with your child: _____

Has your child's teacher noted any specific problems? _____

Please describe: _____

How does your child do in school? _____

Has your child ever participated in a structured social skills group? _____

Where? _____ Dates of Service _____

5. Other

Is there any information that you feel would help us to better understand your child?

List any specific goals you hope to achieve by participating in this program:

March 8, 2007

Dear Parents:

Riddle Outpatient Pediatric Services is now offering a social skills group for children ages 6-12 years old. The goal of this group will be to increase the awareness of others and expose the children to various social situations where they will have the opportunity to practice pragmatic skills in a controlled environment with direct instruction and modeling. A certified speech-language pathologist will be facilitating the social skills group.

This group is not designed to be a replacement for individual speech-language therapy services, but it is intended to be a companion to individual services your child may already receive. This group can also serve as a transition when your child completes a course of individual treatment.

The group will meet one time per week for six weeks (6 sessions). A special introductory cost of \$300.00 will be offered. Full payment is expected prior to the first session. Space is limited and children will be accepted on a first come first serve basis.

The group will meet on Tuesday or Wednesday evenings starting the beginning of April. Your child will be placed in a group based on optimal social interaction as decided by the clinicians. Attendance is critical as the children in the group are relying on each other to develop social interaction.

Attached is an intake form to give us important information about your child. Please complete the form and return it to this department as soon as possible. Be specific; include any pertinent information that will help us plan for your child.

We look forward to a fun filled six weeks with you and your child! If you would like additional information regarding the group, please feel free to contact our office at 610-891-3370.
